

Beautiful Skin Begins With Your Skin Care Consultation

Your Personal Skin Care Consultation

Our Skin Care Specialist will meet with you one-on-one to review your skin care problem areas, lifestyle, goals and expectations. Common treatable conditions include acne, redness (rosacea), dryness, discoloration (pregnancy masks, sun spots, etc), fine wrinkles, light scarring, uneven skin surface and dull-looking skin.

Ardie will listen to you and then determine which combination of treatments and/or products, including prescription strength products, will give you the best possible results on your individual goals and skin type.

Skin Care Products

The Skin Care Center offers an array of corrective skin care products, including prescription strength which are highly effective and recommended by our board certified plastic surgeons.

Call for your private and confidential skin care consultation today. Day and evening appointments are available.

NPS Superior Skincare

NPS Superior Skincare is our own line of skin care products, specifically chosen with our patients in mind. We offer cleansers, moisturizers, exfoliators, C-serums, and highly effective mineral sunscreens. NPS Superior Skincare is all non-comedogenic, paraben-free and fragrance-free, at an affordable price.

Obagi Medical

We offer several lines of Obagi Medical Rx Products skin care, including Nu-Derm, the #1 physician-dispensed skin care system. Nu-Derm helps correct visible signs of aging skin, such as wrinkles and pigmentation by using Retin-A, 4% hydroquinone, glycolic acid and lactic acid. We also offer CLENZiderm M.D. to help control acne plus Obagi-C Rx system to help maintain younger looking skin and correcting pigmentation with vitamin C and 4% hydroquinone.

Grow Your Lashes Longer, Fuller & Darker

Latisse solution is a prescription treatment for hypotrichosis used to grow eyelashes, making them longer, thicker and darker. Eyelash hypotrichosis is an other name for having inadequate or not enough eyelashes. Latisse is the first and only FDA-approved prescription treatment for eyelash growth.

jane iredale Mineral Cosmetics

Enhance your natural beauty with jane iredale Cosmetics at The Skin Care Center. These top-quality products are recommended by plastic surgeons, dermatologists and skin care professionals. By using these cosmetics you will achieve the closest impression possible of your perfect skin.

The micronized mineral bases are four products in one: foundation, powder, concealer and sunscreen. This product will disguise almost any skin imperfection from discoloration, scars or birthmarks, to post-operative redness and bruising. We carry the full jane iredale make-up line including lip and eye color, blushes and under-eye concealer. Let our skin care specialist introduce you to the best skin care cosmetics available.

Refresh ~ Renew ~ Revitalize

Welcome to The Skin Care Center

The Skin Care Center is a medical spa devoted to the latest techniques in therapeutic skin care. We offer solutions to a broad range of skin care conditions. No matter your age, gender or lifestyle, we can improve the appearance of your skin. Why wait to look and feel your best? Call today!

Our goal at The Skin Care Center is to refresh, renew and revitalize your skin. With our professional consultation and treatment plan you will see clearer, healthier looking skin. Some of our most popular services include the Dermaglow™ microdermabrasion, SkinCeuticals micropeels, Skin Pen microneedling, Lamprobe, TCA Peels, and therapeutic facials as well as professional make-up consultations and applications using our chemical and preservative-free jane iredale Mineral Cosmetics.

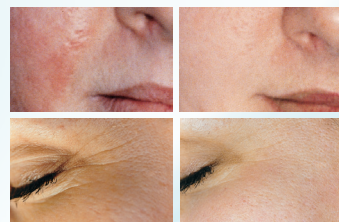

We have non-surgical procedures available including dermal fillers and botox in addition to surgical options such as eye lifts, face lifts and liposuction for the chin. Call to schedule a consultation with one of our Board Certified Plastic Surgeons to discuss what is right for you.

218-724-7363

Our customers rely on our expertise and personal attention to their needs.

Dermaglow™ Microdermabrasion

Our most popular treatment is microdermabrasion because there is little to no down time. It's great for fine lines, wrinkles, sunspots, and pigmentation.

before and after photos

TCA Peels

TCA peels are cosmetic treatments that use trichloroacetic acid to improve your skin's appearance against wrinkles, discolorations, scarring, acne and precancers. These peels come in a variety of strengths or concentrations of acid used.

A TCA peel often requires a week or more of downtime as the skin peels off and then renews itself. The areas most often treated are face, neck, décolletage and hands.

SkinCeuticals MicroPeel®

The MicroPeel has been developed by a recognized leader in the treatment of aging and acne-prone skin. This treatment uses a light application of glycolic or salicylic acid that exfoliates the skin and promotes a healthy, youthful glow while reducing active acne. This fundamental exfoliating process is safe, painless and gentle enough for immediate make-up application afterwards.

Lamprobe

The Lamprobe treatment combines high frequency and radio technology to get rid of skin irregularities. Treatments are done on individual skin problems one at a time and it usually takes only a few seconds to minimize the undesirable skin conditions. The Lamprobe treats benign moles, cholesterol deposits, broken capillaries, cherry angiomas, fibromas, telangectasias, milia, skin tags, clogged pores, keratosis and simple pimples. Healing time can vary from 2-4 days for cherry angiomas, broken capillaries, and skin tags. It can take up to 3 weeks for larger problems like fibromas and keratosis.

Therapeutic Facials

Prevent and minimize signs of aging with a therapeutic facial. This treatment is designed to meet your individual skin care needs. Therapeutic oils, massage and steam along with deep cleansing and detoxifying are used. A monthly therapeutic facial will keep you looking and feeling your very best.

"Within two treatments the 'mask' I had from pregnancy was gone! Ardie understood what I needed, listened to me and took care of my problem areas."

SkinPen II

Using the SkinPen II, microneedling stimulates your skin's natural ability to produce collagen and elastin for healthier, younger-looking skin. SkinPen is effective for scars, wrinkles, sun damage, uneven skin tone, large pores and thin skin.

"Ardie was friendly, informative, and made me feel at ease with the procedures. I will return for additional skin care."

"I am 110% satisfied and have much more confidence. I receive compliments on my clear skin and make-up a lot."

It's Not All About The Face

Today's products and procedures are increasingly successful at making our skin appear more youthful and fresh; but we tend to focus on our faces, leaving other areas to 'give us away'.

The skin on the neck, décolletage and back of the hands experience the same loss of elasticity and pigmentation irregularities as the skin on the face. Don't forget to ask about these areas too, so they will also reflect your ageless appearance.

*"De-col-le-tage" [French]
